

Searching in CERES

There are a few ways to find papers, dissertations, or other materials in CERES.

The fastest way is to use the Search bar on top left and type in the term that you want to use,

This will take you to the results page, where you can further refine results or filter for more keywords or terms

[Can a paper-based device trace COVID-19 sources with wastewater-based epidemiology?](#)

Mao, Kang; Zhang, Hua; Yang, Zhugen (ACS, 2020-03-23)

A recent outbreak of novel coronavirus pneumonia (COVID-19) caused by SARS-CoV-2 infection has spread rapidly around the globe, with cases now confirmed in 130 countries worldwide. Although public health authorities are racing to contain the spread...

[Blurred lines: the timeline of supply chain resilience strategies in the grocery industry in the time of Covid-19](#)

Carissimi, Maria Concetta; Pratavera, Lorenzo Bruno; Creazza, Alessandro; Melacini, Marco; Dallari, Fabrizio (Springer, 2022-06-02)

To anticipate, adapt and respond to, and recover from disruptions, firms need to enhance supply chain (SC) resilience. The spread of the COVID-19 pandemic in 2020 represented a unique opportunity to investigate it empirically. This study focuses...

[COVID-19 and terrorism: Assessing the short and long-term impacts](#)

Silke, Andrew (Pool Re and Cranfield University, 2020-05-05)

The COVID-19 pandemic is already having a significant impact on terrorism in a

If you want to change the sort order, or show more or less results you can use the gear on the right-hand side of the results bar

It will take a second to show the change, but the page will refresh with the changes. By default the results are displayed by Relevance, but you can change that to show newest results, or by title alphabetically

The default for search terms is to use OR. CERES search ignores bridging characters like hyphens or colons so entering a term like covid-19 will use OR, and return a lot of results.

You can also restrict search to certain communities or collections by choosing from the drop-down above the search box

The screenshot shows a search interface with a header bar. Below it, the word "Search" is displayed. A dropdown menu is set to "School of Water, Energy and Environment (SWEE)". The search input field contains the text "covid-19". A search button with a magnifying glass icon is to the right of the input field. Below the search bar, there is a link that says "Add filters". A message box states: "Showing 98 out of a total of 98 results for community: School of Water, Energy and Environment (SWEE). (1.535 seconds)". Below this, a list of results is shown, starting with a thumbnail image and the title "Chapter 19: Social and ethical considerations for agricultural robotics" by Ayris, Kirsten; Rose, David Christian (Burleigh Dodds Science Publishing, 2023-09-01).

It is also possible to add some pre-defined filters or multiple filters:

Search

The screenshot shows a search interface. The dropdown menu is set to "All of CERES". The search input field contains the text "covid-19". A search button with a magnifying glass icon is to the right of the input field. Below the search bar, there is a link that says "Add filters", which is highlighted with a red box.

This will bring up a line of filter sets:

Search

Search: All of CERES

"covid-19"

[COVID-19 and terrorism: Assessing the short-and long-term impacts](#)

Silke, Andrew (Pool Re and Cranfield University, 2020-05-05)

The COVID-19 pandemic is already having a significant impact on terrorism in a variety of ways. There is a mixed picture on the level of attacks in the short-term – lockdown measures will tend to inhibit attacks but terrorist propaganda

calling...

You MUST click Apply when you add or subtract filters!

Combining search terms requires round brackets and double quotes plus AND in the search terms:

Search

Search: All of CERES

("covid-19" AND "food")

[Add filters](#)

Showing 10 out of a total of 166 results. (0.133 seconds)

1 2 3 4 ... 17 [Next Page](#)

This will return results that have BOTH terms. You can combine multiple 'AND' terms in the same brackets.

You can use NOT to exclude terms in the refined search:

Search

Search: All of CERES

("covid-19" NOT "food")

Add filters

Q

Showing 10 out of a total of 180 results. (0.193 seconds)

[Previous Page](#) [1](#) . . . [15](#) [16](#) [17](#) [18](#)

⚙

The search filtering tends to refine to a narrower set, so if you are unsure about results, reset the filters!

Discovery, Browse and Collections

If you have a good idea of where you will find results by area of interest, use the communities and collections which map to themes/departments and document types to start your search, or the Browse and **Discovery panel on the left**. Discovery lists results pre-filtered to dates, subjects and authors, while Browse returns a data list you can refine.

CERES is a full-text open access repository. The search checks metadata like titles, dates, authors and subjects first, then abstracts and descriptions and other metadata. The more precise your terms the better the results. If you would like to see other filters, or are still having difficulty then contact s.searle@cranfield.ac.uk or library@cranfield.ac.uk for further help!
