Corrigendum

Corrigendum to “Energy-aware scheduling and berth allocation for ferries under phased cold ironing upgrades” [Transp. Res. E Logist. Transp. Rev. 210 (2026) 104800]Asefe Forghani^a, Ying Xie^{a,*}, Mahdi Jahangard^b, Dongping Song^c, Yuanjun Feng^c^a Faculty of Business and Management, Cranfield University, Cranfield, UK^b Anglia Ruskin University, Chelmsford, UK^c School of Management, University of Liverpool, Liverpool, UK

The authors regret that the full funding information was inadvertently omitted from the published version of the article. During the double-blind review process, the journal required that all funding details be anonymised, and the manuscript therefore contained a placeholder statement. The complete funding information was provided in the cover letter at every submission stage, as well as in the submission portal. The authors understood that the correct statement would be inserted during production once anonymity was no longer required. This funding also enabled the publication of the article under an open access scheme.

The correct funding statement is:

“This work is supported by UK Research and Innovation (UKRI) under the UK National Clean Maritime Research Hub [grant number EP/Y024605/1], funded through the Engineering and Physical Sciences Research Council (EPSRC).”

The authors would like to apologise for any inconvenience caused.
